COMMUNICATION

Commissioner for Patents

Sir:

This paper is filed in response to a phone call from Examiner Li on July 1, 2008 in which the requested that Applicants attorney supply pages 49 and 50 of the specification which appear to have been damaged. In an earlier paper Applicant's attorney stated that this appeared to be an "error in scanning at the Patent Office". This appears not to be the case as the published PCT had scanning errors.

Regardless of the source of the error, Applicants submit pages 49 and 50 with the right margin visible.

Date: July 2, 2008
